(5) 2d Bn (Ambl), 319th Arty reported FSB BEACHTESGADEN (YD435011) received 20x80mm mortars, all landing outside the perimeter. Results: no damage or casualties. Btry A and B, 2d Bn (Ambl), 319th Arty and Btry B, 2d Bn (Ambl), 11th Arty fired counter mortar fire on suspect mortar sites. Btry A, 1st Bn, 40th Arty moved by road to vic grid YC419954 in support of MONTGOMERY RENDEZVOUS.

(6) 5 Aug: Btry B, 2d Bn (Ambl), 319th Arty credited with 1 VC killed by artillery during counter mortar fire from FSB BEACHTESGADEN.

(7) 6 Aug: 2d Bn (Ambl), 11th Arty reported that a CH-47 dropped a load of HE on a ready rack of ammunition at FSB BEACHTESGADEN (YD435011). Total damage was 22 fuzes and 2 illum rounds destroyed.

(8) 7 Aug: Btry A, 1st Bn, 40th Arty moved by road to vic grid YD37770069 in support of Operation MONTGOMERY RENDEZVOUS.

(9) 8 Aug: Btry A, 1st Bn, 40th Arty moved by road to vic grid YC4C2972 in support of MONTGOMERY RENDEZVOUS. Btry C, 1st Bn (Ambl), 321st Arty moved four (4) tubes by road from FSB BASTOGNE (YD622098) to FSB BIRMINGHAM (YD704101) in support of Operation MONTGOMERY RENDEZVOUS.

(10) 10 Aug: 4th Bn (Aerial Artillery), 77th Arty reported one (1) AH-1G aircraft received ground fire while supporting CON at grid YC599676. Aircraft crashed and both pilots received back injuries and were MEDEVAC to PHU BAI. Air Force and ARA attempted to destroy downed aircraft, but were unsuccessful. 2d Bn (Ambl), 319th Arty reported FSB CURRAHEE (YC398949) received 37x82mm mortars, all landed outside perimeter. Results: no damage or casualties. Btry A and B, 2d Bn (Ambl), 319th Arty; Btry B, 2d Bn (Ambl), 11th Arty; and Btry A, 1st Bn 40th Arty fired counter mortar suspect locations. Btry A, 1st Bn, 40th Arty moved by road to vic grid YC384990. Btry A, 2d Bn (Ambl), 11th Arty moved by air from FSB SLEDGE (ZC059032) to ROCK CRUSHER (ZD015017) and then by road to CAMP EAGLE (YD819140) in support of Operation KENTUCKY JUMPER. Btry C, 2d Bn (Ambl), 320th Arty moved by air from vic TAM KY to PHU BAI then by road to CAMP EAGLE (YD814153) as operation with AMERICAN DIVISION terminated. The battery will now support Operation KENTUCKY JUMPER.

(11) 11 Aug: 2d Bn (Ambl), 319th Arty reported FSB JURRAHEE received 6-7 unknown caliber and type rounds, all landing outside the perimeter. Results: no damage or casualties. Btry A and B, 2d Bn (Ambl), 319th Arty; Btry A, 1st Bn, 40th Arty; Btry B and C, 2d Bn (Ambl), 11th Arty; and Btry C, 1st Bn, 83d Arty

(56) 30 Sep: Btry B, 2d Bn (Ambl), 319th Arty moved by road from CAMP EVANS (YD541318) to vic MAI LOC (YD098516). Btry C, 2d Bn (Ambl), 319th Arty moved by road from CAMP EVANS (YD541318) to vic MAI LOC (YD098516). Btry A, 2d Bn (Ambl), 319th Arty moved by air from FSB BLAZE (YD536020) to CAMP EVANS (YD541318). Btry C, 1st Bn, 40th Arty moved by road from FSB BASTOGNE (YD622095) to CAMP EAGLE (YD810157). Btry D, 6th Bn, 33d Arty moved by air from FSB RIFLE (YC881998) to PHU BAI (YD878128).

(57) 01 Oct: Btry A, 2d Bn, 94th Arty firing a HB registration had one round prematurely detonate due to the rain 450 meters from the gun position. Unit was firing on AZ 4800, QE 412, Ti 31.6. 3d Bde 101st Abn Div (Ambl) Operation NORTON FALLS commenced 0800 hrs. in N.W. sector of Quang Tri Province. Btry A, 2d Bn (Ambl), 11th Arty moved 4 howitzers by road from FSB ARSENAL (YD813080) to CAMP EAGLE (YD815153). Btry C, 1st Bn, 40th Arty moved by road from CAMP EAGLE (YD810157) to DONG HA. Btry D, 1st Bn, 44th Arty moved two M42's from PHU BAI (YD878128) by road to FSB BASTOGNE (YD622095).

(58) 02 Oct: 2d Bn (Ambl), 319th Arty will operate a local AWCC (Norton Arty) in their location at MAI LOC (YD098516), which will be tied into the DASC at DONG HA. LZ 1 (XD857591) received 15x82mm mortar rounds, 2 landing inside the perimeter. No casualties or damage. Countermortar fire was fired by the Marines at FSB ELLIOT (XD983543), Btry C, 2d Bn (Ambl), 319th Arty at LZ 1 (XD857591) and Btry B, 2d Bn (Ambl), 319th Arty at FSB SANDY (XD912563) fired on grids XD852623, XD858614, XD858621, XD874614, XD852623, and XD864621. Btry B, 2d Bn (Ambl), 319th Arty moved by air from MAI LOC (YD098516) to FSB SANDY (XD916567). Btry C, 2d Bn (Ambl), 319th Arty moved 2 howitzers from MAI LOC (YD098516) to LZ 1 (XD857591). 4 howitzers back hauled to Quang Tri Combat Base because no security existed for them at MAI LOC.

(59) 03 Oct: Btry C, 2d Bn (Ambl), 319th Arty at FSB SHRAPNEL (YD857591)

15 November 1969

SUBJECT: Operational Report - Lessons Learned, Headquarters 101st Airborne  
Division Artillery (Airmobile) period ending 31 October 1969  
CSFOR-65 (R1)

reported receiving 17 incoming 82mm mortars. All landed outside perimeter. No casualties or damage. One AH-1G Cobra from Btry C, 4th Bn (Aerial Artillery), 77th Arty received 30 rounds S/A fire vic grid XD847574. Aircraft received one hit. Pilot slightly wounded. CAMP EVANS (YD514318) received 3x122mm rockets, one inside perimeter, two seahuts damaged, no casualties. Btry A, 2d Bn (Ambl), 319th Arty, Btry C, 2d Bn, 94th Arty and Btry A, 2d Bn, 138th Arty fired counter rocket fire expending 79 HE. Btry C, 2d Bn (Ambl), 319th Arty moved one tube by air from Quang Tri to FSB SHRAPNEL (XD857591). Btry B, 6th Bn, 33d Arty moved by road from PHU BAI (YD878128) to FSB WANCY (YD435395). This battery is released from its GSR mission to the 101st Abn Div Arty (Ambl). LZ 1 (XD857591) named FSB SHRAPNEL and FSB SANDY (YD912563) is renamed FSB SLOUCH.

(60) 04 Oct: Btry C, 2d Bn (Ambl), 319th Arty moved by air two tubes from Quang Tri to FSB SHRAPNEL (XD857591).

(61) 05 Oct: Btry B, 2d Bn (Ambl), 320th Arty moved 4 tubes by road from CAMP EAGLE (YD814153) to FSB SABER (YD897188). Btry B, 2d Bn (Ambl), 319th Arty fired in support of 12th Marine ambush and was credited with 1 VC killed by Arty.

(62) 06 Oct: 4th Bn (Aerial Artillery), 77th Arty credited with 2 NVA killed by ARA at grid XD872523. Btry C, 2d Bn (Ambl), 319th Arty moved one tube by air from Quang Tri to FSB SHRAPNEL (XD857591). Hill 715 (XD942477) designated FSB VICTORY.

(63) 09 Oct: 4th Bn (Aerial Artillery), 77th Arty credited with 1 NVA killed by ARA at grid YC426973. Btry C, 2d Bn (Ambl), 319th Arty moved 6 tubes by air from FSB SHRAPNEL (XD857591) to FSB VICTORY.

(64) 11 Oct: 4th Bn (Aerial Artillery), 77th Arty conducted an artillery raid in vicinity of FSB RENDLZVOUS (YC433967), engaged 3 targets; grids YC426973, YC438967, and YC456942, expended 40x10 lb PD, 28x17 lb PD and 104 flechette rockets. Negative assessments. Sensor activated vic FSB ANZIO (YD928074). Btry A, 12th ARVN expended 80 HE. Results: 4 VC KBA, 1 POW, 5 AK-47 captured.

(65) 13 Oct: 4th Bn (Aerial Artillery), 77th Arty conducted an artillery raid vic grids YD1429, YD1430, YD1830 expending 333 rockets, negative assessments. Btry A, 1st Bn (Ambl), 321st Arty moved by air from LZ SALLY (YD639271) to FSB JACK (YD499284).

SUBJECT: Operational Report - Lessons Learned, Headquarters 101st Airborne  
Division Artillery (Airmobile) period ending 31 October 1969  
CSFOR-65 (R1)

(66) 14 Oct: Btry A, 2d Bn (Ambl), 11th Arty moved by road from CAMP EAGLE (YD815153) to FSB ELLIOT (XD983542) and by air from FSB ELLIOT to FSB VICTORY (XD942476). 4th Bn (Aerial Artillery), 77th Arty conducted a raid vic grid box YC3087, YC3487, YC3490, YC3090 expending 486 flechette and 60 HE rockets, negative assessments of the area.

(67) 15 Oct: Btry C, 2d Bn (Ambl), 319th Arty moved 4 tubes by air from FSB VICTORY (XD942476) to vic PAI LOC (YD098516).

(68) 16 Oct: Btry C, 2d Bn (Ambl), 319th Arty moved 4 howitzers by air from PAI LOC (YD098516) to FSB CATAPULT (XD825617) to conduct an artillery raid. Fifty-six (56) targets were engaged, expending 700 rounds. Unit moved by air from FSB CATAPULT (XD825617) to FSB VICTORY (XD942476) upon termination of the raid.

(69) 17 Oct: Division Artillery AO observed 19 fighting positions, 2 bunkers, and 1 anti-aircraft position. Btry A, 2d Bn (Ambl), 320th Arty expended 45 rounds, destroying all positions. Btry A, 1st Bn (Ambl), 321st Arty moved by road from FSB JACK (YD499284) to LZ SALLY (YD639271).

(70) 18 Oct: Marine CAP Team 3D had contact vic grid YD958043 with unknown size force. Btry A, 2d Bn (Ambl), 320th Arty, Btry A, 1st Bn, 83d Arty and Btry C, 1st Bn, 39th Arty employed artillery expending 87 rounds. Results: 4 VC KIA, 4 AK-47, and 1 B-40 rocket and launcher captured.

(71) 20 Oct: Division Artillery Visual Net Team moved from CAMP EAGLE (YD810157) to FSB EASTGATE (YD622095). Division Artillery staff gave update briefing to Division CG.

(72) 21 Oct: 1 AH-1G Cobra from Btry C, 4th Bn (Aerial Artillery) 77th Arty flying in support of a CA in NW Quang Tri Province area received 1x.50 cal round in main rotor. No casualties. Btry A, 1st Bn (Ambl), 321st Arty moved by air from LZ SALLY (YD639271) to FSB RAMASAN (YD490198).

(73) 22 Oct: Btry C, 2d Bn (Ambl), 320th Arty moved by road from FSB LOS BANOS (AT832998) to FSB TOMATEA K (ZD117014).

(74) 23 Oct: 1 AH-1G Cobra from Btry A, 4th Bn (Aerial Artillery), 77th Arty crashed on FSB BOYD (YD740130). No survivors.

SUBJECT: Operational Report - Lessons Learned, Headquarters 101st Airborne Division Artillery (Airmobile) period ending 31 October 1969  
CSFOR-65 (R1)

(75) 24 Oct: 2d Bn (Ambl), 319th Arty's Q4 radar moved from CAMP EVANS (YD541318) to FSB SCOTCH (LD912563).

(76) 25 Oct: Btry C, 1st Bn (Ambl), 321st Arty conducted an artillery raid, CAISSON LEVI, moving from FSB ARSENAI (YD813080) to FSB LAUREN (YD428122), and firing on 47 targets expending 760 HE rounds. Results: 35 structures and 1 bunker destroyed, 4 structures damaged and received 2 secondary explosions. The battery then moved by air to FSB BIRMINGHAM (YD704101). Btry C, 2d Bn (Ambl), 11th Arty moved by road from CAMP EAGLE (YD815153) to FSB ARSENAI (YD813080). Btry A, 6th Bn, 33d Arty moved by road from FSB BIRMINGHAM (YD704101) to CUA VIET, moving out of the 101st Abn Div (Ambl) AO. The Division Artillery metro station moved by air from CAMP EAGLE (YD810157) to FSB BASTOGNE (YD622095). LTC Robert D. Hammond assumed command of the 2d Bn (Ambl), 319th Arty from LTC Miles J. Fulwyler.

(77) 27 Oct: NAI LOC (YD098527) reported 4 incoming 60mm mortars. AAA employed, negative results.

(78) 30 Oct: CAMP EVANS (YD814153) reported 2 incoming 122mm rockets, both landed outside perimeter, negative damage or casualties.

(79) 31 Oct: As a result of the 2d Sqdn (Ambl), 17th Cav's discovery of a bunker complex, grid LD897637, two 8" howitzer from Btry A, 8th Bn, 4th Arty moved by road from CAMP CARROL to vic grid YD035565 to conduct an Arty Raid. The bunker complex was destroyed. The Division Artillery has fired a total of 2,309,024 rounds of ammunition since the 101st Airborne Division (Airmobile) has been in Vietnam.

#### 4. (C) Section 2 Lessons Learned, Commander's Observations, Evaluation and Recommendations:

##### a. PERSONNEL:

(1) OBSERVATION: That the 4th Bn (Aerial Artillery), 77th Arty falls short of the USARV assignment criteria of 25% experienced aviators per unit.

(2) EVALUATION: In this battalion's role of delivering ordnance against enemy targets which many times are extremely close to friendly elements, experience and flying skill are of paramount importance. While engaged in ordnance delivery, the aircraft must be flown with the utmost precision and the pilot's mind must be alert and devoted to the ever changing tactical situation.

CONFIDENTIAL

# CONFIDENTIAL

AVTG-DAC

15 November 1969

SUBJECT: Operational Report - Lessons Learned, Headquarters 101st Airborne  
Division Artillery (Airmobile) period ending 31 October 1969  
CSFOR-65 (R1)

The period from the aviator's arrival in RVN until he reaches the desired skill level is characterized by firing incidents and aircraft accidents. The assignment of sufficient second tour aviators to season the new aviator and add his experience to the learning process will result in a higher level of experience throughout the battalion. Status as of 13 November 1969:

<u>AUTH</u> <u>AVIATORS</u>	<u>AVIATORS</u> <u>ASSIGNED</u>	<u>2d TOUR</u> <u>AVIATORS</u>	<u>AH-1G</u> <u>QUALIFIED</u>	<u>AH-1G</u> <u>ON 2D TOUR</u>	<u>%ASS'D</u> <u>AVIATORS</u> <u>2D TOUR</u>	<u>% AH-1G</u> <u>QUAL ON</u> <u>2D TOUR</u>
107	105	18	92	17	17.1%	16.1%

(3) RECOMMENDATION: That sufficient second tour aviators be assigned to Aerial Artillery units to bring them to a minimum of 25% experienced aviators.

## b. INTELLIGENCE:

### (1) Vietnamese aerial observers

(a) OBSERVATION: Recent efforts to assist RVN artillery units by sharing US air assets with them have exposed an almost total lack of personnel trained or experienced in the tactics and techniques of aerial observation.

(b) EVALUATION: At the present time RVN forces do not possess sufficient numbers of aircraft to either correct this problem or to make its existence felt. However, as the Vietnamese continue to gain air assets and to become responsible for larger areas operation, this lack of experience could prove critical.

(c) RECOMMENDATION: That these US units involved with aerial observation missions and endowed with the requisite assets develop training program for local RVN forces.

### (2) Aerial Observers

(a) OBSERVATION: The 101st Abn Div (Ambl) has the requirements to cover convoys, conduct visual reconnaissance, and to adjust all types of artillery fire on a daily basis.

(b) EVALUATION: Sufficient air assets are available to the division to handle the required missions. However, there are currently only two aerial observers authorized in all of Division Artillery. Battalions must divert resources to man aerial observer missions.

-20-

# CONFIDENTIAL

## CONFIDENTIAL

AVDG-DAC

15 November 1969

SUBJECT: Operational Report - Lessons Learned, Headquarters 101st Airborne  
Division Artillery (Airmobile) period ending 31 October 1969  
CSFOR-65 (R1)

(c) RECOMMENDATION: That TO&E's be changed to authorize two aerial observers per direct support battalion and two aerial observers at HHE, 101st Abn Div Arty (Ambl).

### c. OPERATIONS:

#### (1) Use of Flechette Warheads

(a) OBSERVATION: The WDU-4A/A Flechette Warhead effectively penetrates jungle canopy and covers large areas with lethal effect.

(b) EVALUATION: The WDU-4A/A Flechette Warhead has a devastating anti-personnel effect. However, it is not effective against troops in positions with overhead cover. If used for LZ preparation prior to T.C air and artillery, the enemy will remain unwarned and exposed to the rocket's effective area coverage.

(c) RECOMMENDATION: That WDU-4A/A rockets be employed on planned LZ's prior to any other type fire and be followed by a swift, violent air and artillery preparation, prior to the combat assault.

#### (2) Consolidated Rearming Points

(a) OBSERVATION: Consolidated rearming points are not satisfactory.

(b) EVALUATION: A consolidated rearming point established in a forward area always develops a backlog of helicopters requiring rearming whenever there is a large contact. This significantly increases the time required to rearm an ARA section and lengthens turn around time to an unacceptable level. In addition, ammunition accountability is a practical impossibility as crews take rockets from the nearest available stock pile.

(c) RECOMMENDATION: A central "issue point" at each forward base where units draw ammunition and then transport it to their individual rearm points.

#### (3) RECON by FIRE

(a) OBSERVATION: Advantages of reconnaissance by fire are not fully used to support infantry elements.

(b) EVALUATION: Reconnaissance by fire aids in navigation, provides a point located by fire, and reduces the response time for processing fire

## CONFIDENTIAL

# CONFIDENTIAL

AVDG-DAC

15 November 1969

SUBJECT: Operational Report - Lessons Learned, Headquarters 101st Airborne  
Division Artillery (Airmobile) period 31 October 1969 RCS CSFOR-65 (R1)

requests. Reconnaissance by fire often will reveal enemy structures and may eliminate enemy ambushes along the unit's route.

(c) RECOMMENDATION: That commanders, LNO's and FO's encourage the use of reconnaissance by fire.

(4) Utilizing both ARVN and US Artillery to support either ARVN or US maneuver elements.

(a) OBSERVATION: The most economical employment of all artillery available is accomplished by using both ARVN and US artillery to support combat operations.

(b) EVALUATION: The best way to provide both US and ARVN artillery fires to either US or ARVN maneuver elements is to establish a joint TOC and FDC. This arrangement provides a central control agency which controls all artillery in the area of operation. The establishment of liaison and communications with ARVN artillery will also accomplish the desired results. At the present time one battalion has a normal artillery liaison party with the 34th ARVN Arty which is DS to the 54th ARVN Regt. It should be noted that the liaison officer works with the ARVN artillery in much the same manner as a reinforcing to reinforced relationship except that in effect both units are being reinforced by the other element's artillery. This arrangement provides a better utilization of the artillery available and more responsive fires than can be accomplished by establishing liaison with ARVN maneuver elements. On one occasion the ARVN established liaison with a firing battery in order to provide responsive US artillery support to an ARVN cavalry squadron operating in the brigade AO. The procedures outlined above also have the added advantage of eliminating the requirement to provide US forward observers to ARVN maneuver elements.

(c) RECOMMENDATION: That joint US and ARVN TOC's and/or liaison be established when feasible.

(5) The Artillery Raid

(a) OBSERVATION: The artillery raid is an excellent economy of force measure.

(b) EVALUATION: If adequate targeting data is available the artillery raid is an excellent economy of force measure. This is particularly true during periods of bad weather that precludes maneuver elements from operating for prolonged periods of time in the outlying areas of the area of operations. The

# CONFIDENTIAL

# CONFIDENTIAL

AVDG-DAC

15 November 1969

SUBJECT: Operational Report - Lessons Learned, Headquarters 101st Airborne  
Division Artillery (Airmobile) period ending 31 October 1969  
CSFOR-63 (R1)

airmobility available within the division makes the artillery raid even more effective. Normally the weakest element in an artillery raid is surveillance of the target area. The use of the Air Cavalry Troop eliminates this weakness. With proper coordination, an artillery aerial observer can observe the target area while the firing is being conducted. When complete, the artillery will shift to another series of targets and the cavalry teams can conduct EDA or surveillance in the target area. This technique works extremely well and not only provides surveillance of the artillery fires but allows the cavalry to conduct a detailed reconnaissance of the area while tube artillery is in position to support.

(c) RECOMMENDATION: When adequate targeting information is available, artillery raids should be conducted utilizing cavalry teams for surveillance.

## (6) Blocking fires.

(a) OBSERVATION: When supporting multiple ambushes in the lowlands, it is frequently difficult to fire artillery at the point of contact due to proximity to friendly troops.

(b) EVALUATION: In these situations the best employment of artillery is to fire blocking fires to block all possible routes of withdrawals.

(c) RECOMMENDATION: That LEO's and FO's encourage the use of blocking fires when feasible.

## (7) 8 Octant GFT settings

(a) OBSERVATION: The computation of manual firing data is required for every mission. This data is either fired or used to check FADAC data and should be as accurate as possible. This requires the computation of "8 OCTANT" GFT settings. However, computing manual "8 OCTANT" GFT settings four times per day is very time consuming.

(b) EVALUATION: The battalion computes GFT settings using FADAC by following these procedures. Store battery center and altitude in FADAC as a target. Select, for GFT calculation purposes only, an optimum range for all charges, both high and low angle. In each of the octants compute FADAC data for each charge with its optimum range and angle of fire keeping the imaginary target at the same altitude of the battery. The data displayed is the adjusted deflection, time and elevation. In high angle fire the deflection correction

# CONFIDENTIAL

# CONFIDENTIAL

AVDG-DAC

15 November 1969

SUBJECT: Operational Report - Lessons Learned, Headquarters 101st Airborne  
Division Artillery (Airborne) period ending 31 October 1969  
CSFOR-65 (R1)

contains drift. Subtract the drift corresponding to the adjusted elevation from this value to obtain the constant deflection correction.

(c) RECOMMENDATION: The method outlined above can be used to save time while retaining accuracy.

(8) The "Light Ship".

(a) OBSERVATION: When maneuver elements conduct small multiple ambushes, it is frequently difficult to obtain exact locations for all maneuver elements. Therefore, it is beneficial to have an artilleryman in the air to pinpoint friendly locations.

(b) EVALUATION: A LOH with mounted multiple lights is an excellent means of observation while supporting troops in contact at night.

(c) RECOMMENDATION: That the LOH with light be used when supporting troops at night.

d. ORGANIZATION: See Inclosure 1.

e. TRAINING: Training of AH-1G Aviators.

(1) OBSERVATION: The training of AH-1G aviators at USAVNS Element, Hunter Army Airfield is inadequate for combat operations in AVNS.

(2) EVALUATION: The training given in the AH-1G transition course at Hunter Army Airfield does not give instruction in touchdown autorotations, antitorque control failures, or operations at or near maximum gross weight. Consequently, units must use combat aircraft to give this training to newly assigned aviators which have been trained in CONUS. This training is required by USARV Supplement 1 to AR 95-4 and by 101st Abn Div (Ambl) Reg 95-6. An additional shortcoming is that aviators are not adequately schooled in the weapons systems in the co-pilots gunner's station. The AH-1G training provided by USARV at Vung Tau teaches all the required elements, provides for instruction in aircraft that are at or near maximum gross weight, and gives adequate training in weapons systems.

(3) RECOMMENDATIONS:

(a) That CONUS training be modified to adapt to the combat unit's needs.

-24-

## CONFIDENTIAL

AVDG-DAC

15 November 1969

SUBJECT: Operational Report - Lessons Learned, Headquarters 101st Airborne Division Artillery (Airmobile) period ending 31 October 1969  
CSFOR-65 (R1)

(b) Or, that all AA-1G training be given in USAFV.

### f. LOGISTICS: Survival Equipment

(1) OBSERVATION: That aircraft crew members in Div Arty do not have Escape, Evasion, and Survival equipment.

(2) EVALUATION: Aircraft continuously fly over the most hazardous and treacherous terrain in Vietnam. However, marker lights (FSN 6230-067-5209) and radio sets VRC 10 (FSN 5820-858-5721) are not available in sufficient quantities. A survival weapon (car 15 or M16) is required for each aircraft. Marker lights and radio sets have been on valid requisition since 9238 and 9147, respectively.

(3) RECOMMENDATION: That sufficient numbers of Escape, Evasion, and Survival items be procured and issued.

### g. COMMUNICATIONS:

#### (1) AS-2236 Antenna

(a) OBSERVATION: The quality, reliability, and range of FM radios are significantly enhanced with utilization of the AS-2236 Log Periodic Antenna.

(b) EVALUATION: Two AS-2236 Antennas, a Marine Corps item, were borrowed from other ICTZ units and employed between the Battalion CP at Camp Eagle, FSB Rendezvous in the A Srau Valley, and Hai Loc, near the Daz. In both cases, high quality, reliable, FM communications resulted, as contrasted with the RC-292 antenna, which could produce only marginal communications over the same area, with the same radios. Db gains of between 8 and 12db were recorded during the period when Log Periodics were being utilized in the battalion. The need for adoption of this antenna within the division is readily apparent, and will become more critical as division combat force disperse over the expanded areas of operations.

(c) RECOMMENDATIONS: Initiate action to obtain AS-2236 antennas for Army requirements. In the interim, initiate action to obtain a number of these antennas for division use from departing Marine Corps units.

#### (2) Frequency Sharing

Division Artillery (Airmobile) period ending 31 October 1969

CSFOR-65 (R1)

(a) OBSERVATION: Radio frequency interference has been experienced between firing batteries, LNO sections, and forward observers in certain areas. The interference could have been caused by Marine CAP teams operating on the same frequency.

(b) EVALUATION: When administrative traffic and non-pertinent traffic from other stations is present on a shared frequency, it prevents the most responsive fire support.

(c) RECOMMENDATION: That continued emphasis be placed on providing non-shared frequencies for fire nets.

b. MATERIAL: None.

SUBJECT: Operational Report - Lessons Learned, Headquarters,  
101st Airborne Division Artillery (Airmobile) for  
Period Ending 31 October 1969, RCS CSFOR-65 (R2) (U)

DA, HQ, 101st Airborne Division (Airmobile), APO San Francisco  
96383 26 Nov 69

TO: Commanding General, XXIV Corps, ATTN: AVII-GCT, APO 96308

1. (U) Forwarded in accordance with USARV Regulation 525-15 and XXIV Corps Regulation 525-2.

2. (C) The following comments and/or recommendations are submitted:

a. Paragraph 4a, page 19: At present the division is overstrength in aviators but will be reduced through attrition to a 92% USARV established manning level. The AH-1G (Cobra) is a relatively new aircraft in the Army inventory and the experience level of aviators in this aircraft is proportionately low. Second tour aviators qualified in the AH-1G are not arriving in Vietnam in sufficient numbers to meet the 25% criteria. It is anticipated that in-country AH-1G transition of second tour aviators will partially alleviate the experience problem.

b. Paragraph 4b(2), page 20: Letter, AVHGC-FDU, USARV, 12 October 1969, subject: Moratorium of Processing TDA, MTDA and MTOE, imposes a moratorium on the generation of routine MTOE's effective 12 October 1969. An MTOE may be submitted during the period of the moratorium if critical circumstances require. Division artillery has prepared an MTOE for submission at such time that the moratorium is eased.

c. Paragraph 4f, page 25:

(1) A valid due-out currently exists for 500 lights, marker distress.

(2) The radio, URC-68, that was scheduled to replace the URC-10, failed to meet R&D specifications and is not presently programmed for issue in Vietnam. Headquarters, USARV has instructed units not to request subject radio. URC-10 or substitute will be issued to units on the basis of a 50% fill of authorized level. The division currently stands at a 48.6% fill.

**CONFIDENTIAL**

Period Ending 31 October 1969, RCS CSFOR-65 (R2) (U)

(3) The survival weapon for AH-1G (Cobra) aircraft crew members in division artillery is a .38 caliber pistol. No other weapons are presently authorized for crew members. According to Headquarters, USARV G4, the survival weapon CAR-15 is not available for issue through supply channels at the present time. One hundred CAR-15's are currently on hand and assigned to various units within the division. M-16 rifles are currently available in supply channels and may be authorized for issue based on approval of an MTOE. Division artillery is currently preparing an MTOE for authorization of the M-16 based on critical need, per paragraph 2b above.

FOR THE COMMANDER:

HUGH A. MACDONALD  
Colonel, GS  
Chief of Staff

# CONFIDENTIAL

AVII-GGT (15 Nov 69) 2nd Ind  
SUBJECT: Operational Report - Lessons Learned of the 101st Airborne Division  
Artillery (Airmobile) for the Period Ending 31 October 1969, RCS  
CSFOR-65 (R2)(U)

DA, Headquarters, XXIV Corps, APO SF 96308 8 DEC 1969

TO: Commanding General, United States Army, Vietnam, APO SF 96375

1. (U) The Operation Report - Lessons Learned of the 101st Airborne Division Artillery (AM) has been reviewed by HQ, XXIV Corps and is forwarded in accordance with AR 525-15.

2. (C) Except as noted below, this headquarters concurs with the report as indorsed by the 101st Airborne Division (AM).

a. Reference item concerning Consolidated Rearing Points are not satisfactory, section II, para 4c(2), page 21. Concur in part with recommendation. A central issue point and individual unit rearm points would alleviate the rearming problem. However, other problems must be considered, such as; location of and security for rearm points, personnel required to operate individual rearm points, and transportation of ammunition from the central issue points to the individual rearm points.

b. Reference item concerning 8 Octant GFT Settings, section II, para 4c(7), page 23. Concur. Manual proficiency in the computation of GFT settings using a Met Checkpoint System and/or computation of individual mission firing data utilizing wind cards, must also be retained as a back-up for FADAC computation.

c. Reference item concerning The Light Ship, section II, para 4c(8), page 24. Nonconcur with evaluation and recommendation. The Army Concept Team in Vietnam (ACTIV) completed testing and evaluation on the ENSURE 260 Light System, more commonly referred to as the Electro Optical System (EOS), on 22 August 1969. This set was initially designed for and tested in the LOH. On 12 August 1969, ACTIV forwarded an interim report to Department of the Army, recommending the use of the EOS on the UH-1 rather than the LOH. Their justification hinged primarily on the lack of instrumentation in the LOH.

d. Reference item concerning training, section II, para 4e(1). Concur. Recommend that unit's recommendation be forwarded to USAAVNS for consideration.

e. Reference item AS 2236 Antenna, section II, para 4g(1), page 25. Concur with the requirement for an antenna with the same characteristics. An ENSURE request has been initiated by HQ, USARV for the Log Periodic Antenna.

AVII-GCT (15 Nov 69) 2nd Ind

**SUBJECT: Operational Report - Lessons Learned of the 101st Airborne Division Artillery (Airmobile) for the Period Ending 31 October 1969, RCS CSFOR-65 (R2) (U)**

f. Reference item Frequency Sharing, section II, para 4g(2), page 26. The shortages of FM radio frequencies within the XXIV Corps AO precludes assignment of sole user frequencies to every radio net. However, sufficient frequencies are available to enable each major unit to assign sole user frequencies to its most critical radio nets. Radio nets normally classified as critical are Div/Bde/Bn Command Nets, Div/Bde/Bn Operations and Intelligence Nets, Fire Direction Nets, Pathfinder Nets, and Aviation Group/Bn Command and Operations Nets. Each major unit must evaluate its radio net structure, assign priorities, and make their frequency assignments accordingly. Although many radio nets will be forced to utilize common user frequencies, mutual interference can be held to an absolute minimum through careful coordination between the Radio/Signal Officer and the G3/S3 personnel. Consideration must be given to type of units involved, physical locations, and proposed movement of these units.

AVRQC-DGT (15 Nov 69) 3d Ind  
SUBJECT: Operational Report-Lessons Learned Headquarters, 101st Airborne  
Division Artillery (Airmobile) Period Ending 31 October 1969,  
RCS CMPOR-65 (R2)(U)

HEADQUARTERS, UNITED STATES ARMY, VIETNAM, APO San Francisco 96375 26 JAN 1970

TO: Commander in Chief, United States Army, Pacific, ATTN: GPOP-DT,  
APO 96558

1. (U) This headquarters has reviewed the Operational Report-Lessons Learned for the quarterly period ending 31 October 1969 from Headquarters, 101st Airborne Division Artillery (Airmobile) and comments of indorsing headquarters.

2. (C) Comments follow:

a. (U) Reference item concerning the shortfall in assignment of experienced aviators, page 19, paragraph 4a and 1st Indorsement, paragraph 2a. Concur with 1st Indorsement. Examination of the experience level of AH-1G aviators assigned to the 101st Airborne Division (AM) as of 1 December, revealed that a total of 207 AH-1G qualified aviators were assigned. There are presently 49 AH-1G aviators assigned to the 101st Abn Div who are presently serving a second tour in RVN. This gives an experience ratio of 24.3%, which is slightly below the 25% experience factor required for USARV as a whole. The present ratio of experienced AH-1g aviators (2d tour) to inexperienced (1st tour) is considered acceptable in view of DA policy that applies, and in accordance with resources made available to USARV. It should be pointed out that the 25% experience requirement applies to USARV as a whole, and not to each particular unit within USARV. The requirement for filling key command and staff positions throughout USARV with experienced (2d tour) aviators, for example, can clearly be expected to reduce the ratio of experienced aviators to somewhat less than 25% for battalion and smaller sized aviation units.

b. (U) Reference item concerning "Vietnamese Aerial Observers", page 20, paragraph 4b(1); concur. In view of the present Vietnamization program, attempts by units to correct or eliminate exposed RVN weaknesses such as this with a formal training program or QJT is highly encouraged. This item will be considered for discussion during the next MACV Aerial Reconnaissance Conference to be held in January 1970.

c. (U) Reference item concerning "Use of Flachette Warheads", page 21, paragraph 4c(1); concur. No action by higher headquarters is required.

d. (U) Reference item concerning "Recon by Fire", page 21, paragraph 4c(3); nonconcur. Reconnaissance by fire does not discriminate between friendlies and the enemy. Reconnaissance by fire, as described, is essentially a violation of the MACV Rules of Engagement unless conducted within a Specified Strike Zone. The 101st Abn Div (AM) has been advised of the potential problem that could occur as a result of reconnaissance by fire.

**Division Artillery (Airmobile) Period Ending 31 October 1969,**  
**ROS COMUS-65 (R2)(U)**

e. (O) Reference item concerning The "Light Ship", page 24, paragraph 4e(8), and 2d Indorsement, paragraph c: Concur with the 2d Indorsement. Action is being taken to provide the Division with "Night Hawk" equipment which will provide the unit with a covert airborne night surveillance capability mounted in a UH-1H aircraft.

f. (U) Reference item concerning "Training of AH-1G Aviators", page 24, paragraph 4e, and 2d Indorsement, paragraph 2d: Concur with 2d Indorsement. USARV Aviation will discuss the USAAVN AH-1G training program in depth with the aviation representatives on the COMARC Liaison Team scheduled to visit USARV in Jan 70.

g. (U) Reference item concerning "Survival Equipment", page 25, paragraph 4f, and 1st Indorsement, paragraph 2c: Concur with 1st Indorsement. USARV message, 050718Z Dec 69, subject: Issue of AN/URC-10 Survival Radios, directed the issue of 212 AN/URC-10 survival radios to the 101st Airborne Division. These issues bring the division to a 100% fill of the survival radios authorized.

AFDG-LAC Inclosure 1

15 November 1969

**SUBJECT:** Organizational Structure to Operational Support - Lessons Learned,  
Headquarters 101st Airborne Division Artillery (Airmobile) period  
ending 31 October 1969 CSFOR-65 (R1)

Division Artillery is organized under the following TOE:

a. Headquarters and Headquarters Battery: MTOE 6-701T

b. Two field artillery battalions, 1st Battalion (Airmobile), 321st Artillery and 2d Battalion (Airmobile), 319th Artillery MTOE 6-705T and further organized as:

(1) Headquarters and Headquarters and Service Battery: MTOE 6-706T

(2) Three firing batteries: MTOE 6-707T

c. The 2d Battalion (Airmobile), 320th Artillery: MTOE 6-705T. The battery units were further organized as:

(1) Headquarters, Headquarters and Service Battery: MTOE 6-706T

(2) Three firing batteries: MTOE 6-707T

(3) A fourth battery, Battery D, 2d Battalion (Airmobile), 320th Artillery, which supports the 3d Battalion (Airmobile), 506th Infantry, which is OACOM to 1 Field Force Vietnam, was reorganized under TOE 6-706T, per General Order Number 124 Headquarters USARPAC, dated 13 February 1969.

d. The 2d Battalion (Airmobile), 11th Artillery is organized under USARPAC MTOE 6-425G, dated 24 November 1967. The battery units are organized as follows:

(1) Headquarters and Headquarters Battery: MTOE 6-426G

(2) Three firing Batteries: MTOE 6-429G

(3) Service battery: MTOE 6-429G

e. The 4th Battalion (Aerial Artillery), 77th Artillery is organized under TOE 6-725T.

(1) Headquarters, Headquarters and Service Battery: TOE 6-726T

(2) Batteries A, B and C: TOE 6-727T
