Brief History of the 501st, 502nd and 2nd Brigade (101st ABN DIV)

The 502nd, or “five-oh-deuce”, was activated July 1, 1941 at Fort Benning, Georgia as the 502nd parachute infantry battalion, as an experimental unit formed to test the doctrine and tactics of parachute assaults. The 502nd entered combat in World War II on June 6, 1944, by jumping into Normandy, with allied forces landing on D-Day and the Battle of Normandy. Between 1945 and 1964. A major reorganization took place on 3 February 1964, when the 2nd Brigade of the 101st Airborne was activated at Fort Campbell, replacing the 1st Airborne Battle Group, 501st Infantry Regiment. The reorganization from the battle groups to brigades and battalions placed two battalions of the 502nd in different brigades of the 101st.

The 2nd Battalion, 502nd Infantry was in the 1st Brigade with 1-327th and 2-327th Infantry. Which deployed to Vietnam and arrived at Cam Ranh Bay, Vietnam on 29 July 1965, they were commanded by the most notable commander LTC Hank “The Gunfighter” Emerson.

The new 2nd Brigade's original organic battalions were the 1st and 2d Battalions, 501st Infantry, and the 1st Battalion, 502nd Infantry. December 1967 the 501st, 502nd and 2nd Brigade deployed by C-141 aircraft and arrived at Bien Hoa Airbase on 13 December 1967. Over the next five years, Soldiers of the “Ready to Go” Brigade participated in twelve campaigns, compiling of a distinguished combat record as well as an enviable reputation for success in the rehabilitation of a war-torn nation. The Brigade redeployed to Fort Campbell in April 1972.

20 May 1969

Operation APACHE SNOW: Late in the morning (1000H) of 20 May, following an artillery preparation, the four battalions executed a coordinated assault on Hill 937.

3-187 IN BN

At 1100H, 3-187 IN BN with A/3-187 IN on the right, C/3-187 IN in the center and attached A/2-506 IN on the left, moved southeast for a coordinated attack on the hill when they received concentrated RPG and small arms fire. The attacking elements returned the fire with organic weapons and continued to fire and maneuver up the hill. As the elements approached the crest they again came under fire from the south, in addition to CS gas (it was later determined that the gas was errant friendly 40mm gas grenade). The attacking elements of the 3-187 IN BN returned fire with organic weapons and employed artillery, ARA, and gunship on the suspected enemy location (YC 324997) and continued with A/3-187 IN reaching the top of Hill 937 first at 1145 hours. The attacking force received additional fire as the enemy attempted to cover its withdrawal to the southwest into the 1-506 IN BN locations. The elements continued to return small arms fire and employed ARA, artillery, and gunships on the retreating enemy. The contact terminated at 1600 hours and a sweep of the area revealed seventy-eight NVA killed and one prisoner of war.

Throughout the day – 3-187 IN BN company commander noted – the noise level was so great that they could not as certain if friendly artillery was being employed, the crack of small arms fire drowned out any other sounds. The inability to use radios due to the noise level made it imperative that messengers be used to relay messages and directions to the forward elements. In addition, various colored smoke grenades were detonated by the NVA making it extremely difficult to place effective air strikes on the desired targets, and to control friendly fire.

1-506 IN BN

At 1055H, A/1-506 IN and C/1-506 IN moved north to assault the hill and encountered heavy enemy resistance. Elements continued to receive small arms, RPG, and mortar fire from the same location throughout the day. The companies involved returned small arms fire and employed ARA, artillery and gunships for support on suspected enemy locations. Contact was terminated at approximately 1600H, but the attacking elements continued to receive sporadic fire throughout the night. A sweep of the area revealed eight NVA killed.

2-501 IN BN

A/2-501 IN, B/2-501 IN, and C/2-501 IN while moving southwest up Hill 937 encountered no enemy resistance. As the elements continued to move, they discovered numerous huts and bunker complexes vacated by the retreating enemy.

2-3 ARVN BN

At 0715H, the 2-3 ARVN BN while moving northeast for the coordinated attack on Hill 937 encountered light enemy resistance and discovered moderate sized caches of assorted ammunition, in addition to a six-foot-wide road with a power cable which they followed to their objective. Continuing to advance toward the top of the hill they received concentrated small arms fire and employed air and artillery support of destroy the enemy location. Contact terminated at approximately 1600 hours and a sweep of the area was made revealing six NVA bodies and three AK-47's

During the day PSYPO missions were conducted in the vicinity of DONG AP BIA entreating the enemy to give up and live or be destroyed. To bring out the pressure the defenders of DONG AP BIA were under, several shirts were captured with signs sewn on them demanding: "Kill Americans, Kill the Vietnamese: and "Stay and Fight and not Run".

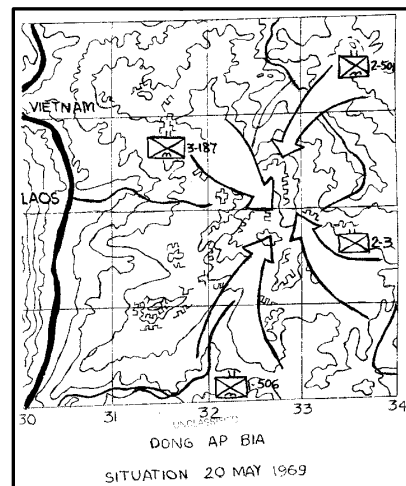

As the attacking elements maneuvered up the hill, they encountered well prepared positions. The small bunkers they encountered were 4x4 foot with 8-16 inches of overhead cover, and were constructed of sod and logs, firing ports to the front and supplementary foxholes to the sides. The larger bunkers were 8x10x5 foot with one foot of overhead cover and were similarly constructed of sod and logs. These larger bunkers appeared to have been sleeping areas with fighting

position to the front. One very unique feature of the bunkers discovered on DONG AP BIA was their tent link construction, forming an extremely strong fighting position. (Narrative Operation APACHE SNOW; MG John M. Wright Jr. Commanding; 10 May – 7 June 1969)

20 May 1969

Operation APACHE SNOW: Assault on DONG AP BIA “Hamburger Hill – Hill 937: 4 Battalions executed a coordinated assault on Hill 937. The 3-187 IN BN swept up the hill from the north, while the 1-506 IN BN and 2-501 IN BN blocked possible routes of escape. The 2/3d ARVN moved onto Hill 937 from the south. By 1200H Battalion objectives on the DONG AP BIA Ridge were taken. The determined enemy resistance disintegrated as friendly forces overran enemy positions resulting in total body count for 20 May was 109. At 1230H, an NVA battalion augmented by personnel from a sapper demolition team, launched a daring ground attack against CAMP EAGLE, following the firing of more than 400 rounds of 122mm rockets, 82mm mortars, b-40, and B-41 ammunition into the Division headquarters area. The ground attack was staged at the southwest edge of the perimeter and was beaten back by headquarters troops of the 1BDE and members of the 2-502 IN BN and helicopter gunships. Fast thinking gunners from the 329th Artillery rolled in a 105mm Howitzer without sighting devices and killed 12 enemy at the edge of the wire with four anti-personnel rounds. At first dawn, a sweep of the area revealed 54 enemy bodies and 16 individual weapons captured. Additional ordinance uncovered included 40 satchel charges, 40 Bangalore torpedoes, and 50 RPG rounds. Damage to the base area was termed light. (Rendezvous with Destiny (Volume 1, Number 2); July 1968)

Operation LAMAR PLAIN: 1BDE elements engaged in heavy contact as the 1-501 IN BN fought a day long struggle against a determined, well dug-in enemy. At 0500H, C/1-501 IN, vicinity BT164115, detected movement outside an NDP and engaged the suspected enemy with M-79 and hand grenades. A first light sweep disclosed 2 VC KIA. At 0642H, B/1-501 IN, vicinity BT165108, received intensive small arms and heavy machinegun fire from an enemy force of unknown size. The ensuing contact continued throughout the day. C/1-501 IN, D/1-501 IN and Recon/1-501 IN, vicinity BT165105, observed 4 NVA with a 12.7mm HMG and engaged the enemy position. At 1000H, D/1-501 IN joined the bitter fighting by engaging an enemy force in the area. The fighting continued throughout the day as the enemy tenaciously defended from steel-reinforced concrete bunkers. Tactical air, artillery, and Air Cav support was used throughout the fighting, but the ground units remained locked in close combat throughout the afternoon. As the elements disengaged, the enemy left 25 KIA on the battlefield with the 1-501 IN BN suffering 12 KIA and 46 WIA in the fight. Contact was scattered elsewhere in the AO as the ground elements began to uncover mute evidence of the effectiveness of the intensive air and artillery strikes throughout the AO. (HQ, 1BDE, 101st ABN DIV; After Action Report, Operation LAMAR PLAIN; 15 September 1969)

21 May 1969

Operation LAMAR PLAIN: Contact with the enemy was generally light and sporadic until May 21 when 1-501 IN BN units, northeast of Hill 187, made contact in the early morning. Fighting continued throughout the day as two companies and the recon platoon were ambushed. The fighting was concentrated around a small hill where the enemy occupied well-concealed spider holes, trenches, and steel-reinforced concrete bunkers.

By mid-afternoon, D/1-501 IN was scattered south and east of the hill. They were badly shot up and pinned down by heavy enemy fire. Worse, the location of one of their platoons was unknown. Recon also was hurting after losing its platoon leader, platoon sergeant, and several other men, leaving a Spec 4 rifleman in command. Bravo assaulted the enemy hill position from the northeast and sustained many casualties. They collected the dead and wounded and set up a CP and aid station.

C/1-501 IN, in reserve, was ordered to assault the hill late that afternoon. The third platoon stood up on line, shoulder-to-shoulder, and before the command to charge could be given, the enemy opened fire. Immediately, second platoon was ordered into the fight and the two platoons charged across a rice paddy toward the hill. Several men fell wounded in the paddy, and more at the base of the hill as from above, the enemy fired mortar, machine gun, and rocket-propelled grenades. As the men leaped over a stone wall and began to advance up the hill, the first platoon and company CP also came under attack. The enemy tried to encircle them.

Murderous fire brought down several more of C/1-501 IN men. But using grenades and fire and maneuver, they reached a second stone wall. Then they were fired on from every direction. Enemy soldiers wearing grass and tree limbs as camouflage rose up from spider holes and trenches and charged from behind. The fighting became very close, often hand-to-hand.

There were many acts of personal courage. After taking out several enemy bunkers with light anti-tank weapons and spraying rifle and machine-gun fire into the trees where enemy soldiers had tied themselves with ropes, the 101st moved further up the hill toward a third stone wall, behind which there was a continuous line of spider holes interconnected by tunnels. To the left and right, behind the wall, were bunker and tunnel complexes. Each time a bunker was taken out, more enemy soldiers crawled through the connecting tunnels and trenches, pulled their dead away, and replaced them in the firing positions.

The beleaguered grunts finally fought their way to the top of the hill and destroyed the last of the enemy bunkers. They were exhausted, nearly out of ammo and water, and without radio contact with the CP. The two platoon leaders, 1LT Don Gourley and 1LT Dan O'Neill, made the decision to recover their wounded and withdraw from the hill. After getting the wounded off the hill, Gourley led a group back up the hill to recover the dead, but the tactical situation prevented their recovery efforts. Only with the help of guys from Bravo's third platoon were they able to police up their weapons and equipment and get their wounded to a makeshift assembly area and aid station. Helicopters, under enemy fire, took out the wounded well into the night. Evacuation of the remaining wounded and recovery of the dead were the priorities the next morning. During the day's fighting, the 1-501 IN BN had 12 men killed in action and 49 wounded.

Over the next dozen days, the enemy stalked the 101st units with well-placed mortar and sniper fire. Aircraft losses continued steadily. During this period, 18 men were killed and 54 were wounded. A 24-hour cease-fire was declared for May 30, Buddha's birthday. (Bitter Fighting In QUANG TIN, Roger Ables)

Operation APACHE SNOW: The coordinated four battalion assault on 20 May resulted in the successful seizure of DONG AP BIA and rendered the 29th NVA Regiment combat ineffective. A systematic search and destruction of the bunker complex was initiated on 21 May, while pursuit operations were launched by the 2-17 CAV squadron followed with a ground pursuit by the 2-501 IN BN. The 2-501 IN BN encountered extensive bunker complexes in the vicinity YC3298 which it meticulously searched and destroyed while moving on a multiple platoon axes west to the Laotian Border.

The 1-506 IN BN continued to encounter pockets of resistance of platoon size elements in heavily fortified bunker positions along the southern ridges of DONG AP BIA which were eliminated with organic weapons, air and artillery support. Throughout the 21st, 1-506 IN BN accounted for forty-six NVA killed in these small unit actions.

The 2-3 ARVN BN made a detailed search of the high ground and the ridges to the east of DONG AP BIA. At the end of the day they had accounted for twenty-nine NVA killed.

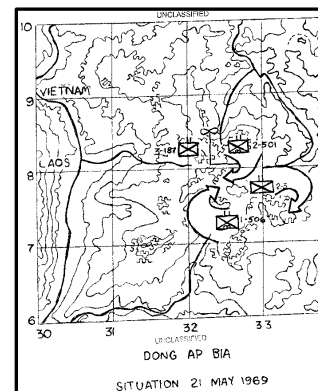

The 3-187 IN BN was extracted from the northern A SHAU VALLEY and inserted at FB BLAZE where they became OPCON to 2BDE. Following a short respite at FB BLAZE the battalion was placed on stand down status and its elements went to Eagle Beach for Rest and Recuperation.

The 2-506 IN BN deployed from the lowlands to the mountains of the northern A SHAU VALLEY in place of the 3-187 IN BN. A/2-506 IN BN and E/2-506 IN BN completed their air move to FB AIRBORNE with the rest of the Battalion to be deployed the following day.

The DONG AP BIA operation cost the enemy a total of 630 soldiers killed. In addition to these confirmed casualties, a prisoner of war captured during the operation indicated that 80% of the units in his unit were casualties. (Narrative Operation APACHE SNOW; MG John M. Wright Jr. Commanding; 10 May – 7 June 1969)

Though APACHE SNOW is over the 101st ABN DIV continues their aggressive hard-hitting attack to return control of THUA THIEN Province to the Republic of Vietnam. When the forward element of his platoon was ambushed by a well-entrenched enemy force, Lieutenant Hill immediately led an assault on the enemy bunkers, destroying one bunker as his platoon advanced on other enemy positions. Lieutenant Hill then called for and adjusted artillery on the remaining fortifications. His actions contributed greatly to the routing of the enemy force. Lieutenant Hill's personal bravery and devotion to duty were in keeping with the highest traditions of the military service and reflect great credit upon himself, his unit, and the United States Army. SGT James P. Brinker (E/2-502 IN) was awarded the Bronze Star Medal with Valor (2-OLC) for heroism in ground combat against a hostile force in the Republic of Vietnam on 20 May 1970. Sergeant Brinker distinguished himself while serving as a rifleman in Company E, 2d Battalion (Airmobile), 502d Infantry, during combat operations in THUA THIEN Province, Republic of Vietnam. While conducting an on-line assault on a well-fortified enemy bunker complex, Sergeant Brinker's platoon was pinned down by intense hostile small arms and automatic weapons fire. Maneuvering to an unprotected position, Sergeant Brinker intentionally drew the enemy fire to himself, enabling a comrade to engage the bunkers at close range with hand grenades. Despite the enemy fire, Sergeant Brinker charged a hostile emplacement, quickly silencing it with hand grenades. His actions contributed immeasurably to the routing of the enemy. Sergeant Brinker's personal bravery and devotion to duty were in keeping with the highest traditions of the military service and reflect great credit upon himself, his unit, and the United States Army. SFC Edgar C. Burkhalter Jr. (A/2-502 IN) was awarded the Soldier's Medal for heroism not involving actual conflict with an armed hostile force. Sergeant First Class Burkhalter distinguished himself by heroism not involving actual conflict with an armed hostile force on 21 May 1967 near DUC PHO, Republic of Vietnam, while serving as a member of Company A, 2d Battalion (Airborne), 502d Infantry, 1st Brigade, 101st Airborne Division. During a resupply mission one of the resupply helicopters crashed while attempting to take off and several men were pinned under the wreckage. Sergeant Burkhalter, realizing the great danger of the aircraft catching fire with ammunition and explosives aboard, rushed to the aid of the stricken men. As Sergeant Burkhalter neared the wreckage, it started to smoke and then caught fire. With complete disregard for his personal safety and at the risk of his life, he moved to the tail assembly and by sheer strength lifted it and held it until the men were pulled free from the wreckage and to safety. Only then did he set the aircraft down and moved away from the intense heat. Had it not been for Sergeant Burkhalter's courage, two men would have burned to death. Sergeant Burkhalter's heroic actions were in keeping with the highest traditions of the military service and reflect great credit upon himself, his unit, and the United States Army (HQ, IFFV, General Orders Number 977; 22 December 1967)

SP4 Santiago J. Erevia (C/1-501 IN) was awarded the Medal of Honor for extraordinary heroism in connection with military operations involving conflict with an armed hostile force in the Republic of Vietnam. Specialist Fourth Class Erevia distinguished himself on 21 May 1969 while serving as a radio-telephone operator with Company C, 1st Battalion, 501st Infantry Regiment, 101st Airborne Division (Airmobile), during a search and clear mission near TAM KY City in the Republic of Vietnam. After his platoon had penetrated an enemy defensive perimeter, Specialist Erevia was delegated to remain behind and care for the wounded while the rest of the platoon pushed on against the adversary. As Specialist Erevia began administering first aid to the battle casualties, their position came under heavy fire from a line of enemy bunkers to his left front.

Without hesitation, Specialist Erevia crawled from one wounded man to another gathering weapons and ammunition. Armed with two M-16 rifles and several hand grenades, he then rose to his feet and charged directly into the fire of the hostile gun emplacement, discharging suppressive fire on the enemy as he ran. Once near the first bunker, Specialist Erevia edged his way up to the emplacement under intense fire from the other bunkers and unleashed a grenade on its defender. He then maneuvered to the second and third bunkers employing the same tactics and destroyed both fortifications and their occupants with well-placed grenades. His supply of hand grenades now exhausted, Specialist Erevia fought his way to the final bunker, running and firing both M-16 rifles simultaneously, and killed the fortification's defender with point-blank fire. Having single-handedly destroyed four enemy bunkers and their occupants, Specialist Fourth Class Erevia then returned to the soldiers charged to his care and resumed treating their injuries. Specialist Fourth Class Erevia's extraordinary heroism and devotion to duty were in keeping with the highest traditions of the military service and reflect great credit upon himself, his unit and the United States Army. 1LT Daniel L. O'Neill (C/1-501 IN) was awarded the Distinguished Service Cross for extraordinary heroism in connection with military operations involving conflict with an armed hostile force in the Republic of Vietnam, while serving with Company C, 1st Battalion, 501st Infantry, 101st Airborne Division (Airmobile). First Lieutenant O'Neill distinguished himself by exceptionally valorous actions on 21 May 1969 while serving as platoon leader on a search and destroy mission. His unit was ordered to attack a heavily-fortified hilltop position near the city of TAM KY. A large open rice paddy lay between his position and the objective. Immediately upon initiating the attack, his platoon was subjected to heavy enemy automatic weapons and rocket-propelled grenade fire. Employing fire and maneuver, he began to move his platoon forward. Realizing that his men were reluctant to move because of the heavy volume of enemy fire, Lieutenant O'Neill began to move up and down the line shouting encouragement. He then took the lead and led his platoon across the rice paddy to the base of the enemy positions. Employing hand grenades and close fighting, his platoon broke through the initial enemy bunkers and continued to ascend the hill. He then realized that his platoon was receiving fire from its flanks and rear as well as from the enemy positions to the front. Temporarily halting his platoon, he directed the destruction of the enemy positions to his flanks and rear with light antitank weapons and hand grenades. He then renewed the assault, called for and redistributed ammunition, and led the final assault to the top of the hill, eliminating the final pockets of enemy resistance. Ordered to withdraw from the hill to reinforce another platoon, he effectively led his men against the insurgents and rescued the besieged elements. Lieutenant O'Neill's extraordinary heroism and devotion to duty were in keeping with the highest traditions of the military service and reflect great credit upon himself, his unit, and the United States Army. SP4 James P. Glemser (C/1-501 IN) was awarded the Distinguished Service Cross for extraordinary heroism in connection with military operations involving conflict with an armed hostile force in the Republic of Vietnam, while serving with Company C, 1st Battalion (Airborne), 501st Infantry, 101st Airborne Division. Specialist Four Glemser distinguished himself by exceptionally valorous actions on 21 May 1969 while serving as a radio telephone operator during a search and clear operation near the city of TAN KY, QUANG TIN Province. While maneuvering against well-fortified North Vietnamese bunker complexes, his patrol came under intense small arms and automatic weapons fire. As his platoon advanced, an enemy soldier hurled a grenade from his spider hole towards Specialist Glemser and his platoon sergeant, seriously wounding the sergeant. Amid intense enemy fire, Specialist Glemser crawled towards the casualty. After reaching the wounded man, he applied a dressing to his wounds and dragged him to a safer position. Then, Specialist Glemser assaulted the enemy soldier's spider hole, successfully eliminating the foe. Returning to the wounded sergeant, Specialist Glemser carried him 100 meters across a fire-swept rice paddy to the safety of his team's perimeter. Specialist Four Glemser's extraordinary heroism and devotion to duty were in keeping with the highest traditions of the military service and reflect great credit upon himself, his unit, and the United States Army. 1LT Donald F. Gourley Jr. (C/1-501 IN) was awarded the Silver Star Medal for gallantry in action in the Republic of Vietnam on 21 May 1969. Lieutenant Gourley distinguished himself while serving as platoon leader in Company C, 1st Battalion (Airmobile), 501st Infantry. Company C was ordered to attack a heavily fortified enemy hill near TAM KY in QUANG TIN Province, Republic of Vietnam. Lieutenant Gourley promptly organized his platoon and deployed it in preparation for the attack. A large open rice paddy lay between his position and the objective. Immediately upon initiating the attack, his platoon received intensive fire from enemy automatic weapons and rocket propelled grenades. Lieutenant Gourley immediately began to move his platoon forward employing fire and maneuver. Noting the reluctance of his troops to subject themselves to the enemy's fire and cross the open rice paddy, he left his covered position and moved up and down the line directing and encouraging his men. He led his platoon across the rice paddy toward the enemy position. Upon reaching the base of the enemy held hill, the insurgents began a heavy barrage of hand grenades, which inflicted numerous casualties. Lieutenant Gourley led the assault on the enemy positions, and the 2nd platoon broke through the first line of enemy entrenchments and continued to ascend the hill. Upon reaching the crest of the hill, his platoon again came under intense fire from additional enemy positions. With the ammunition supply becoming rapidly depleted, Lieutenant Gourley moved from position to position redistributing the remaining ammunition. He then led the final assault to the top of the hill, eliminating the final pockets of enemy resistance. At this time the reserve platoon of his company came under attack and Lieutenant Gourley's platoon was ordered to withdraw from the hill and reinforce another platoon. Remaining behind with a small force, he covered his platoon as it evacuated its casualties and withdrew to reinforce the second platoon. The enlarged unit was able to repel the enemy attack. At this time Lieutenant Gourley realized that one of his men was missing. Having determined that the man was lying wounded about a third of the way up the initial objective, he moved to the open location of the wounded man and brought him safely back. Lieutenant Gourley's personal bravery and devotion to duty were in keeping with himself, his unit, and the United States Army. (HQ, 101st ABN DIV; General Orders Number 15088; 22 December 1969)

SGT Elmer O. Neises (C/1-501 IN) was awarded the Silver Star Medal for gallantry in action in the Republic of Vietnam on 21 May 1969. Sergeant Neises distinguished himself while serving as a squad leader in Company C, 1st Battalion (Airmobile), 501st Infantry, near the city of TAM KY, Republic of Vietnam. During a search and clear mission, Sergeant Neises subjected himself to the hostile fire as he rushed an enemy position and destroyed it with hand grenades. Sergeant Neises, seeing that the enemy force had his platoon in a cross fire, he picked up several anti-tank weapons and advanced on an insurgent machine gun position with two of his fellow Soldiers. He crawled toward the position despite receiving hostile fire and placed suppressive fire on the insurgents, allowing his comrades to destroy the hostile positions. His courageous actions during the intense enemy contact contributed greatly to the success of the mission. Sergeant Neises' personal bravery and devotion to duty were in keeping with the highest traditions of the military service and reflect great credit upon himself, his unit, and the United States Army. SSG Kenneth E. Buesing (C/1-501 IN) was awarded the Silver Star Medal for gallantry in action in the Republic of Vietnam on 21 May 1969. Sergeant Buesing distinguished himself while serving as a squad leader in Company C, 1st Battalion (Airmobile), 501st Infantry, during search and clear operation near TAM KY, Republic of Vietnam. While maneuvering against a heavily fortified North Vietnamese Army bunker complex, two platoons of Company C were subjected to heavy machine gun fire from the left flank. Volunteering to neutralize the enemy position, Sergeant Buesing crawled through intense enemy bunker. When two light anti-tank weapons silenced the hostile machine gun but failed to neutralize the bunker, Sergeant Buesing again subjected himself to enemy small arms fire to crawl closer to the bunker and destroy it and its occupants with hand grenades. Sergeant Buesing's action saved the lives of many of his comrades and enabled his element to advance. Sergeant Buesing's personal bravery and devotion to duty were in keeping with the highest traditions of the military service and reflect great credit upon himself, his unit, and the United States Army. Specialist Tomaszewski distinguished himself while serving as a squad leader in Company D, 1st Battalion (Airmobile), 501st Infantry, during a search and clear operation near TAM KY in Quan Tin Province, Republic of Vietnam. Specialist Tomaszewski was maneuvering with his unit against a well-entrenched enemy force occupying a hillside position. Suddenly his element was subjected to the intense fire of an enemy bunker complex, and several men were wounded and remained open to hostile fire. Specialist Tomaszewski then led his machine gun team forward in an attempt to place suppressing fire on the enemy. Crawling forward into the heavy enemy fire, he placed his life in the hands of the determined insurgents in order to maneuver his men. While he provided covering fire, the other men of his platoon evacuated the wounded to safety. With this accomplished, the men of Company D attempted to assault and destroy the enemy positions. In the ensuing battle, Specialist Tomaszewski's platoon leader was wounded and evacuated. Immediately assuming command, he led his men against the insurgents throughout the remainder of the day and kept command of his platoon until a new platoon leader was assigned several weeks later. His outstanding courage and professional leadership were an inspiration to all his men and undoubtedly contributed to the saving of many lives as well as being a major factor in the success of the assault on the enemy positions. Specialist Tomaszewski's personal bravery and devotion to duty were in keeping with the highest traditions of the military service and reflect great credit upon himself, his unit, and the United States Army. Lieutenant Zapert volunteered to take his platoon and relieve Company D, which had sustained numerous casualties while engaging a well-entrenched enemy force. While attempting to reach the company's location, Lieutenant Zapert's platoon suddenly came under intense enemy machine gun fire. Reacting immediately, he charged through the heavy fire and silenced the enemy position, killing the three-man crew and capturing the weapon. Utilizing several of his men in this position, he directed them to place suppressive fire upon the enemy as he and the remainder of his men went forward. While advancing on Company D's location, Lieutenant Zapert was wounded by an enemy hand grenade, which temporarily impaired his vision and hearing. Ignoring his wounds, he subjected himself continually to the intense fire as he directed evacuation of the dead and wounded. As he directed medical evacuation operations, he was again wounded in the leg by small arms fire. Quickly bandaging his wound, he evacuated the casualties to a secure area beyond the reach of enemy fire. Only when all of the men had been treated and evacuated did he agree to leave the field of battle. PFC Errol W. Perreira (B/1-502 IN) was awarded the Silver Star Medal (Posthumously) for gallantry in action on the Republic of Vietnam on 22 May 1969. Private Perreira distinguished himself while serving as a rifleman in Company B, 1st Battalion, 502d Infantry, while on a reconnaissance in force operation south of DA NANG, Republic of Vietnam. Private Perreira, disregarding his own safety, went to the aid of the wounded man through intense enemy fire to move him to safety. He then rejoined his element, which was maneuvering on the enemy position. It soon became apparent that the platoons organize weapons and determination would not be sufficient to overcome the strongly emplaced enemy. It was decided to move back so that artillery and gunships could be utilized. Private Perreira stayed forward as the platoon started to move back, giving them covering fire with his own weapon. Once the platoon had pulled back a short distance, he made one last attempt to dislodge the enemy. He stood up and threw a grenade into the enemy machine gun position. He was mortally wounded in this effort, which destroyed the position of the enemy weapon.
